## **[Book] Basic Statistics Exercises And Answers**

To answer this one we need to go to the basic definition of a median. Median is the value which has roughly half the values before it and half the values after. The number of values less than 25 are  $(36+54+69 = 159)$  and the number of values greater than 30 are  $(55+43+25+22+17= 162)$ . So the median should lie somewhere between 25 and 30.
