International Economics - GBV

Heterodox economics is any economic thought or theory that contrasts with orthodox schools of economic thought, or that may be beyond neoclassical economics. These include institutional, evolutionary, feminist, social, post-Keynesian, ecological, Georgist, Austrian, Marxian, socialist and anarchist

Approach

The journal particularly encourages articles that take a critical approach to neoliberalism, that adopt a post-Keynesian (heterodox) approach to economics, or that explore rights-, equality- or justice-based approaches to labour relations and social policy. Link to the journal is available [here](#).
